

ABOUT ENVIRONMENTAL FILMS

GFS1 - 7/78

A NEW FILM IN 1978—LAKE ODYSSEY

This film, produced by the Ontario Ministry of the Environment, dramatizes the restoration of the Kawartha Lakes resort area by an extensive water management program and the potential for recycling the harvest.

27 minutes, color

ENVIRONMENT ONTARIO

This film provides a look at the pollution problems in this province, some of the solutions, and the role of the Ministry of the Environment and its staff in managing the environment in Ontario. This is recommended as a 'first choice' for those interested in an overview of the environmental problems in the province.

23 minutes, color

THE INVISIBLE RIVER

Produced by the Ministry of the Environment for a general audience, this film holds special appeal for young people. The construction of a water supply system to carry water from the Great Lakes to an inland community is compared to building a children's sand castle on a beach.

19 minutes, color

THE RIVER MUST LIVE

This European-produced film is an excellent study of pollution and its ultimate effects when it continues unchecked in a watercourse. Solutions are proposed and treatment methods are discussed.

21 minutes, color

CLEAN WATER, IT'S YOUR DECISION

Produced in the U.S., this lively film points out the growing need for providing adequate pollution controls. Highlighting the causes of pollution, it gives a resumé of processes used in prevention. Drinking water purification is discussed briefly.

14 minutes, color

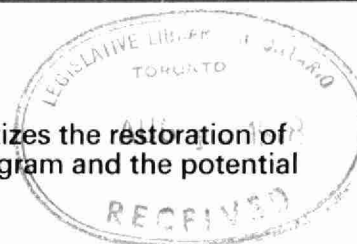

A MATTER OF ATTITUDES

This Canadian film presents an enquiry into the dual problem of air and water pollution in our country. Gathering opinions from a vital group of technical personnel and a cross-section of other citizens, this film is recommended for adult viewing.

29 minutes, color & black & white

WOMEN IN THE ENVIRONMENT

To commemorate International Women's Year, the Ministry of the Environment embarked upon a project to serve as a tribute to the many women employed in the environmental field . . . a film. The result is more than a catalogue of jobs, it is a film containing a mass of important, up-dated, environmental information. The film should be of particular value to biology and geography teachers of senior secondary school students as well as to guidance counsellors.

Copyright Provisions and Restrictions on Copying:

This Ontario Ministry of the Environment work is protected by Crown copyright (unless otherwise indicated), which is held by the Queen's Printer for Ontario. It may be reproduced for non-commercial purposes if credit is given and Crown copyright is acknowledged.

It may not be reproduced, in all or in part, for any commercial purpose except under a licence from the Queen's Printer for Ontario.

For information on reproducing Government of Ontario works, please contact ServiceOntario Publications at copyright@ontario.ca

For reservations:

Films are not circulated by the Ministry, but may be borrowed by writing to the address below. It is recommended that at least three weeks prior notice be given, and if possible, alternate dates.

For Alternate Film Sources

The following list of films is recommended by the Ontario Ministry of the Environment as a valuable resource for teachers involved with environmental education programs.

These films may be borrowed from many sources, such as community film libraries, public libraries, educational film libraries, as well as from National Film Board offices.

The Rise and Fall of the Great Lakes

16 minutes 40 seconds color NFB

35mm: 105C 0168 093 16 mm: 106C 0168 093

In the film a lone canoeist lives through the changes of recent geological history, through Ice Age and flood, only to find himself in the end trapped in a sea of scum.

Epilogue

15 minutes 47 seconds color NFB

35 mm: 105C 0171 048 16mm: 106C 0171 048

From a glimpse of the beautiful planet we inhabit, as seen by astronauts in outer space, this film moves in for a closer look at what man is doing to it.

Man: The Polluter

52 minutes 17 seconds color NFB

35mm: 105C 0172 076 16mm: 106C 0172 076

A richly illustrated cartoon film that enlarges on man's capacity to foul his own nest, and to ignore it. This film transmits its warning with unstinted humor, color, movement and design.
